

SIGN PERMIT APPLICATION GUIDELINES

Purpose and Necessity

Sign permit applications serve as a method of reviewing proposed signs to ensure compliance with the City's adopted sign regulations. The purpose of the regulations are to maintain and enhance the City's physical appearance, reduce hazards that may be caused by signs, prevent signs from obscuring adjacent signs and create a more attractive economic and business climate.

Preparing the Application

When you apply, the following must be submitted:

1. The completed application form.
2. Two copies of a site plan (Four, if Building Permit is required) showing the location of existing structures, proposed structures, proposed signs and property lines.
3. Two copies of elevation drawings (Four if Building Permit is required) showing all sides of the structure(s) that will have signs. The elevation must indicate the dimensions, colors, and materials of the sign(s) and building surface, and the method of attachment to the building or ground.
4. Details of Electrical components, if applicable.
5. The appropriate fees made payable to the City of Alameda.

Prior to submitting the application it is suggested you contact the Permit Center in the Planning and Building Department office to discuss the City's sign guidelines and requirements, as they relate to your site. If your proposed sign(s) requires a Building Permit or Electrical Permit, please contact a Permit Technician to verify submittal requirements for these permits.

Application Processing

Please submit your application to the Permit Center in the Planning and Building Department office. Signs that do not require a Building Permit may be approved over the counter. Signs that require a Building Permit would first be routed to the Planning Division for review and subsequently to the Building Division. The processing time varies depending on the number of applications currently being processed in the Permit Center and the complexity, completeness, and quality of the application materials. An expedited review process is also available with additional submittal requirements; please contact the Permit Center for more information.

For applications that require processing, a notice will be mailed to you once the application has been reviewed. The notice may be in the form of a Hold Notice, requesting additional information or revisions, or an approval letter if the proposal is found to be compliant with all Codes and Regulations. A Permit Technician will contact you when the permit is ready to issue.
